PARTICIPANTS NEEDED FOR A STUDY ABOUT HATE SPEECH:

**WHO:** Adults (18 or older) within the LGBQ community who (a) have experienced hate speech targeted at their sexual orientation within the past year, (b) found the experience to be painful, and (c) have a close friend, family member, or romantic partner who is willing to join them for a 1.5 to 2 hour long lab visitation in which both individuals will participate in a 10-minute discussion about the hate speech experience.

**WHAT:** The goals of the study are to assess the health outcomes associated with social support for victims of hate speech.

**WHERE:** Interpersonal Interaction Lab located at the University of Connecticut Storrs Campus

**TIME:** The entire study will require about 3 hours of your time and 1.5 to 2 hours of your close friend/family member/romantic partner’s time.

**COMPENSATION:** $60 upon completion of the study

Participation will involve taking a survey at home two days prior to the campus visitation, coming to campus to have a conversation about your experience with hate-speech with the person you bring with you, completing two surveys and providing four saliva samples on the day of the visit, and completing an online survey a month after your campus visit.
